CANSON
OF DENMARK

ABOUT US:

THE DETAILS MAKE A DIFFERENCE. CANSON PRODUCES OUTERWEAR FOR THE FASHION AND QUALITY CONSCIOUS MAN. WE HAVE A VARIETY OF WOOL, CASUAL, SPORTS AND CLASSICAL LOOK. WE KNOW THAT DETAILS MAKE A DIFFERENCE. YOU SENSE QUICKLY IF THE OUTERWEAR FITS WELL AND HAS JUST THE RIGHT FIT. WE PLACE GREAT EMPHASIS ON COMFORT, DURABILITY, FUNCTIONALITY AND NOT LEAST THE QUALITY. ON OUR HOME-PAGE YOU WILL FIND THE WIDE RANGE OF OUR NOOS COLLECTION. WE DEVELOP OUTERWEAR IN SIZE 46 TO 72. OUR PRODUCTS ARE SOLD IN DEN-MARK AND MOST PARTS OF EUROPE. THE IDEAS AND DEVELOPMENT OF OUR OUTERWEAR IS IN BEAUTIFUL SURROUNDINGS IN HOLSTEBRO.

AQUA-TEX:

The textile uppers or underpart used are equipped with a high-quality water-repelling feature. The result is a successful combination of functional aspects with the wearing comfort of this fabric. This finish makes your garment easy to care, windproof and breathable. It is ideal for a wide range of outdoor activities.

CAN-TARA:

Can-Tara is a unique textile and it appearance as suede in its texture and gives the jacket the same exclusive and luxurious touch as genuine suede. Nevertheless, Can-tara is a textile, and it has an exceptional durability and ability to deduct dirt and dust. It is a very light soft touch jacket combines an easy care and possible to machine-wash. The jacket is wind and water resistant.

FUTUREFLEX:

This item out of the Canson collection is made of a special fabric to improve your comfort, release your movement and give you an authentic style. It is designed to give you a perfect wear ability, style and fit. The ultimate flexibility guarantees the best performance and releases the body movements. A feeling of comfort you never want to loose. The jacket is wind and water resistant.

HIGH-TECH DOWN:

This garment is padded with an innovative material and offers a synthetic alternative to real down while maintaining similar isolation. And it is manufactured with full respect to the environment and hypoallergenic. This finish makes your garment easy to care and it have a lightness, good performance and soft hand feel of real down.

HYBRID:

Some parts of this fitting and flexible jacket is made of a wind- and water-repellent material which is extremely easy and smooth. The jacket has stretch panels made of a stretchable and breathable material that increases your movement in the jacket. Also the sleeves may have a panel of the same quality, which both increases the wear resistance and heat insulation. Enjoy your Hybrid Jacket and comfort!

MICRO-CAN:

This product is a hi-tech product produced using the principle of ultra-fine micro fibers. The suede effect on this fabric is a result of a special production technique. It is recognized by its velvet feel and soft touch. The special features of microfiber make the garment: Water repellent, breathable, and wind resistant, crease resistant, easy-care and machine washable. The brushed surface with its slight irregularities is part of its characteristic appearance. It is very light and have a comfortable feel and combines weather-resistant properties with comfort in wear.

NATURE:

This item out of the Canson collection is fully or partially made of natural fibers with a stylish look. Exceptional breathability and easy care are among the item's features. All products in the Canson natural series are very kind to the skin and offer unparalleled comfort – natural and fashion-conscious. The jacket is wind and water resistant.

MICRO-CAN:

his product is a hi-tech product produced using the principle of ultra-fine micro fibers. The suede effect on this fabric is a result of a special production technique. It is recognized by its velvet feel and soft touch. The special features of microfiber make the garment: Water repellent, breathable, and wind resistant, crease resistant, easy-care and machine washable. The brushed surface with its slight irregularities is part of its characteristic appearance. It is very light and have a comfortable feel and combines weather-resistant properties with comfort in wear.

NATURE:

This item out of the Canson collection is fully or partially made of natural fibers with a stylish look. Exceptional breathability and easy care are among the item's features. All products in the Canson natural series are very kind to the skin and offer unparalleled comfort – natural and fashion-conscious. The jacket is wind and water resistant.

RAIN WEAR:

The textile upperpart used are equipped with a soft, dull and high-quality water-repelling feature. The result is a successful combination of functional aspects that protect you from the cold and wet weather and still with the wearing comfort of this fabric. This finish makes your garment easy to care, windproof and breathable. It is ideal for a wide range of outdoor activities and it is an absolute essential for rainy days.

REAL DOWN:

This jacket contains genuine down which is a natural product and therefore warm, soft, light and highly breathable. The jacket does not contain down obtained from live feather plucking of geese and ducks. Loose down may occur and it is not a cause of complaints.

REAL LEATHER:

This garment is a natural product, therefore the different shadings in the leather gives each product its own character. This is not considered to be an imperfection, but as a special feature. The leather is a durable and flexible material created by tanning animal rawhide and skin, of cattle hide. We only use high end selections for our products. Please follow care instructions on the care label and only use dry clean by leather specialist.

SHAPE MEMORY:

This product is an intelligent high-tech fabric with a built in memory factor. Even after several creasing, the top layer never fails to return to its original shape, simply by smoothing over with your hand. This unceasing effect is not due to chemicals additives, but a special structure of the polyester fibers. On top of that, these yarns imbue the outer fabric with a high quality, silky-like look and make it easy-care as well.

SYNTHETIC LEATHER:

This garment is a product of synthetic material made with a fabric backing covered with a layer of polyurethane, which is applied to the surface and then embossed.

ULTRA LIGHT:

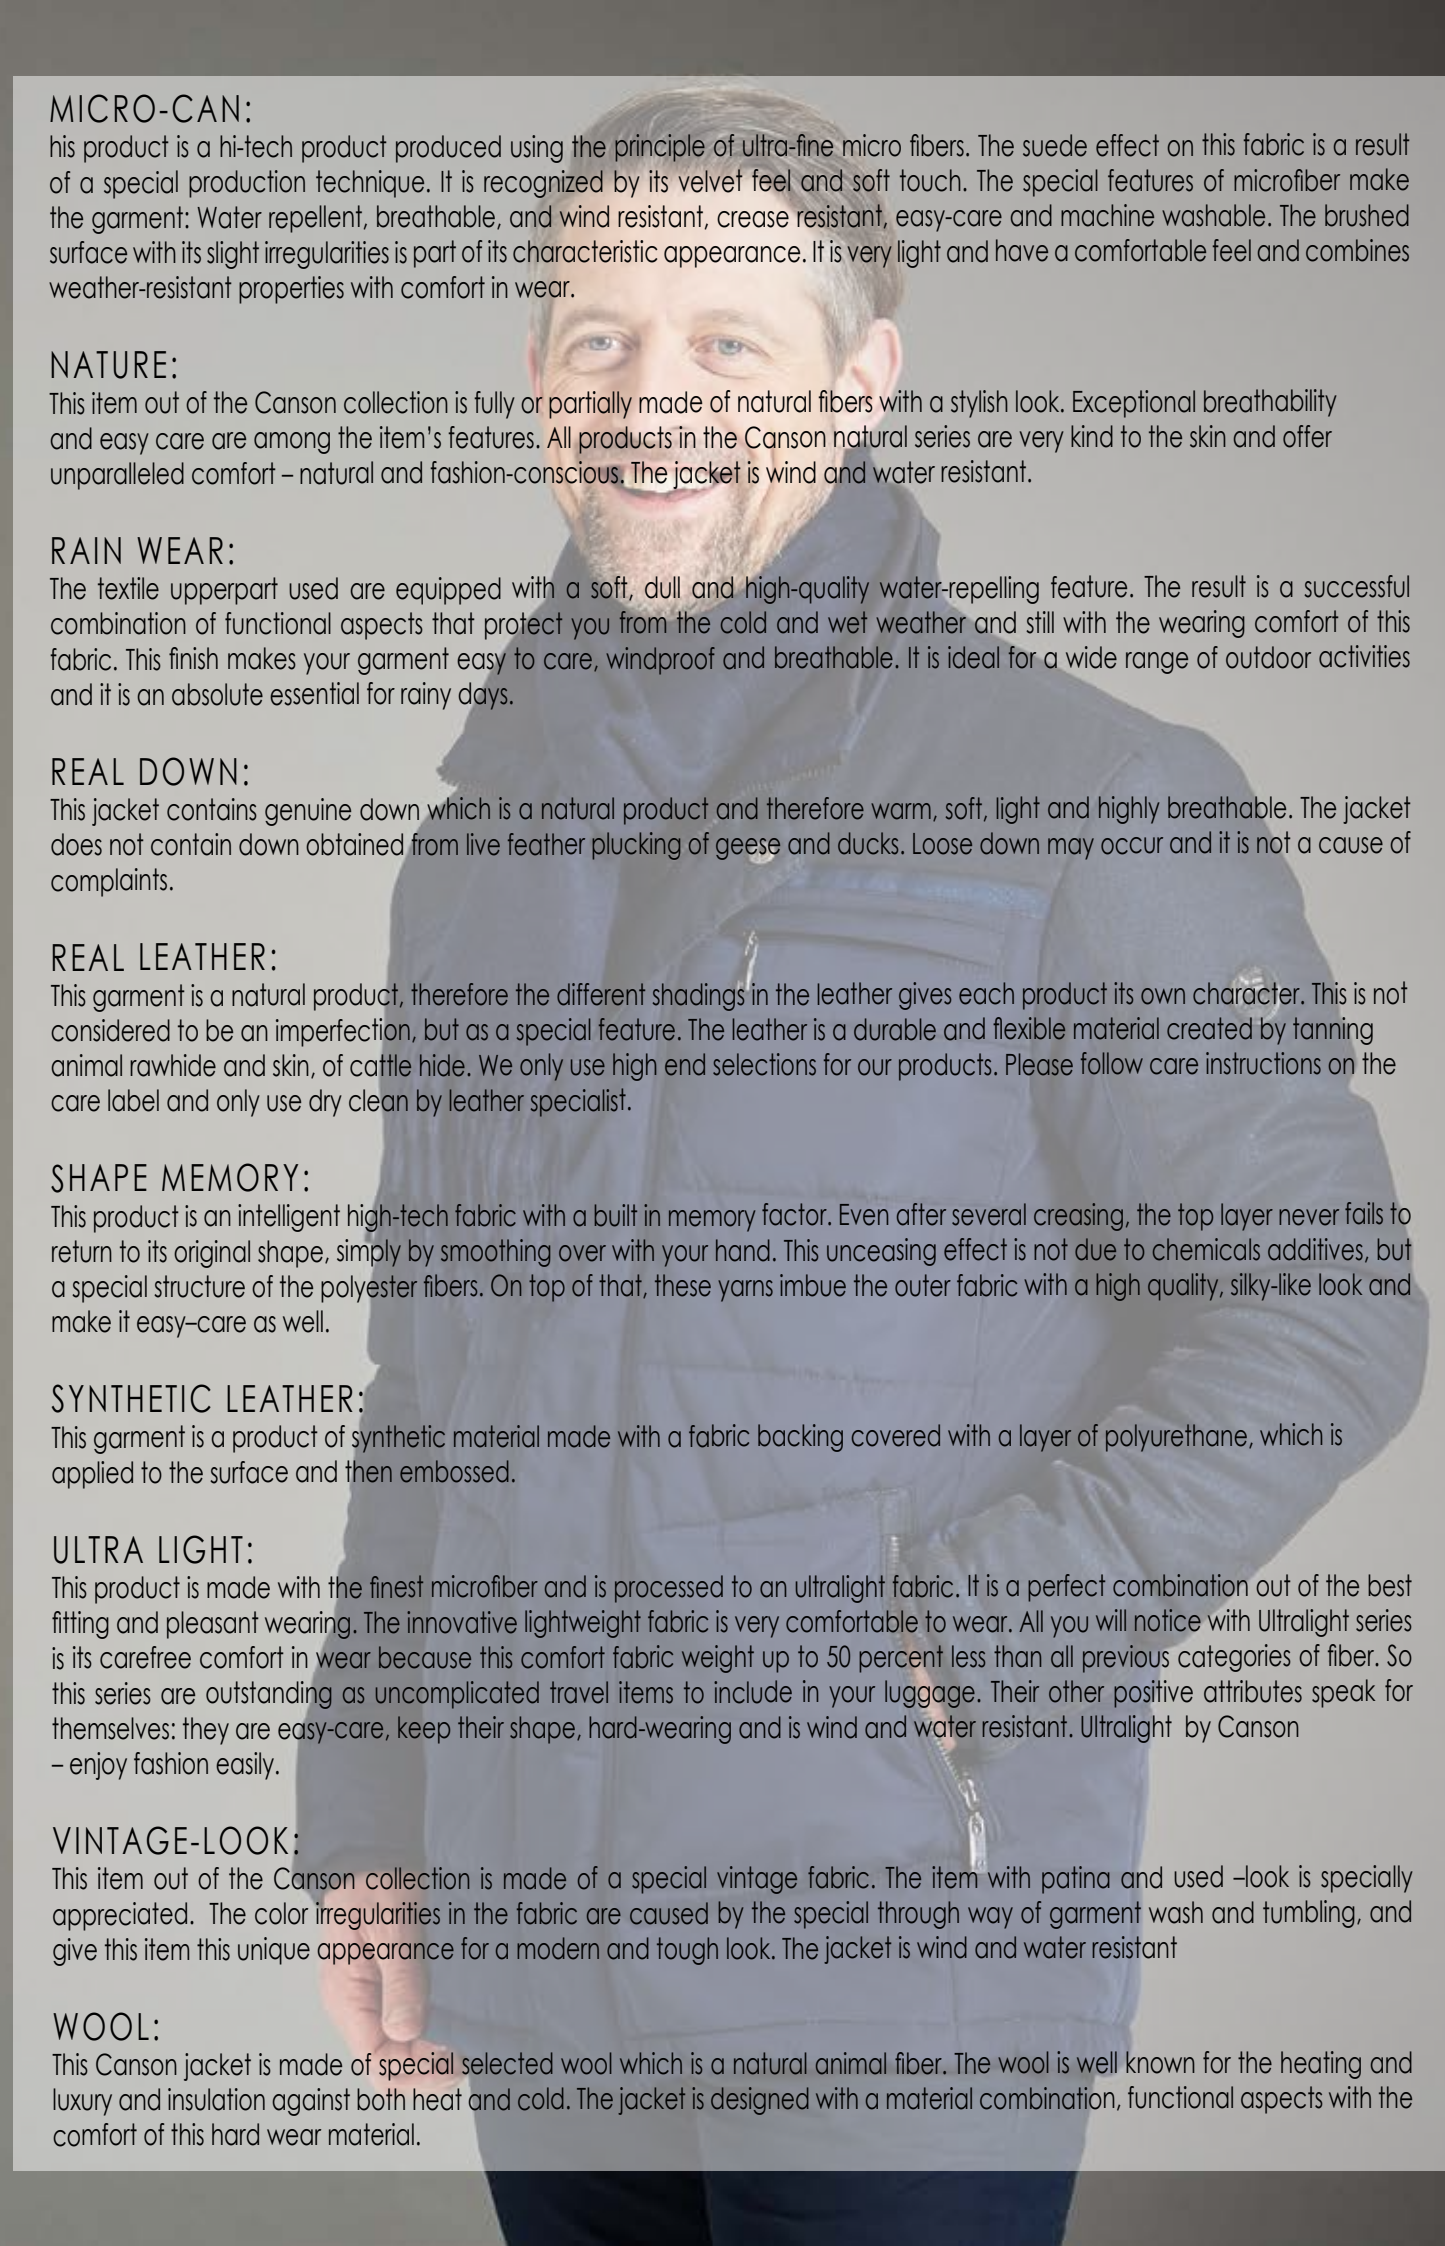

This product is made with the finest microfiber and is processed to an ultralight fabric. It is a perfect combination out of the best fitting and pleasant wearing. The innovative lightweight fabric is very comfortable to wear. All you will notice with Ultralight series is its carefree comfort in wear because this comfort fabric weight up to 50 percent less than all previous categories of fiber. So this series are outstanding as uncomplicated travel items to include in your luggage. Their other positive attributes speak for themselves: they are easy-care, keep their shape, hard-wearing and is wind and water resistant. Ultralight by Canson – enjoy fashion easily.

VINTAGE-LOOK:

This item out of the Canson collection is made of a special vintage fabric. The item with patina and used -look is specially appreciated. The color irregularities in the fabric are caused by the special through way of garment wash and tumbling, and give this item this unique appearance for a modern and tough look. The jacket is wind and water resistant

WOOL:

This Canson jacket is made of special selected wool which is a natural animal fiber. The wool is well known for the heating and luxury and insulation against both heat and cold. The jacket is designed with a material combination, functional aspects with the comfort of this hard wear material.
